Mrs. Watring's Classroom Newsletter

Odds and Ends

We had a short week but we still got a lot accomplished! I apologize for putting in last week's newsletter that I would be gone on Wednesday when it was actually Tuesday! Ms. Kessing said they had a very good day with them on Tuesday!

History

They began the week with their chapter two history test. They did a good job and have the test back to make corrections on. After the test we began learning about Mesopotamia. We learned about the geography of the area to begin with.

5th Grade Math

The 5th grade had a review week over multiplication. They practiced multiplying one, two, and three digit numbers. They finished the week with a test.

6th Grade Math

The 6th grade worked with integers this week, negative and positive. They solved equations that involved adding, subtracting, multiplying and dividing.

Science

In science this week they have been learning about energy and it's uses in the body.

Religion

During religion this week they have been focusing on learning about the luminous mysteries.

Reading & Writing Workshop

This week in reading we began literature circles. We have three different groups that will work together reading the same book. I will also be meeting with the groups to work on different reading strategies. They will also meet with each other to discuss their books. In writing they finished up their rising action and the worked on editing each others writing.

The Week Ahead

In history we will continue to learn about Mesopotamia and the civilizations living there. In math the 5th grade will be multiplying decimals. The 6th grade will be working with fractions. In reading we will work in our literature circles and for writing they will be writing the climax portion of their story.

Have a great weekend!

Verse of the Week

This is the day which the Lord has made. Let us rejoice and be glad in it. Psalm 118:24

Important Dates

Friday, October 26th: Spelling Test/5th Math Test
