Mrs. Watring's Classroom Newsletter

Odds and Ends

Next week will be testing week! We will test in the morning and they will keep the same schedule of classes in the afternoon. We will continue to work on math and spelling next week, but we will not have home work. Please be sure your child gets a good night's rest and has a good breakfast next week!

History

They finished up their web quest about hunters and gathers this week. Then we began reading about the beginnings of agriculture.

5th Grade Math

The 5th grade worked on finding mean, median, mode, and range. They remembered it very well from last year and did a good job with it. We finished the week with a test.

6th Grade Math

The 6th grade worked on solving equations by adding, subtracting, multiplying and dividing. They also worked on simplifying equations, which can be a little tricky.

Science

In science this they experimented and made their own crystals! They have been learning about minerals and what they are made of.

Religion

During religion this week they learned about the mysteries of the rosary and other prayers of the church.

Reading & Writing Workshop

During reading workshop this week we made SMART goals for reading. They made goals that were Specific, Measureable, Attainable, Realistic, and Timely. They also completed a diary entry for the book that they are reading. In writing we focused on punctuating dialogue to prepare them for writing their stories.

The Week Ahead

The majority of our time next week will be spent on testing. We will squeeze a little spelling and math in after when finishing testing, but they won't have homework. We will however still have a spelling test on Friday.

Have a great weekend!

Verse of the Week

Amen, I say to you, whatever you did for one of these least brothers of mine, you did for me. Matthew 25:40

Important Dates

Friday, October 5: Spelling Test
